

ACKNOWLEDGMENT BOOK

A DIGITAL PEONBOOK SYSTEM

LOGIN

The **Login Page** provides secure access to the Acknowledgement Book Mobile Application.

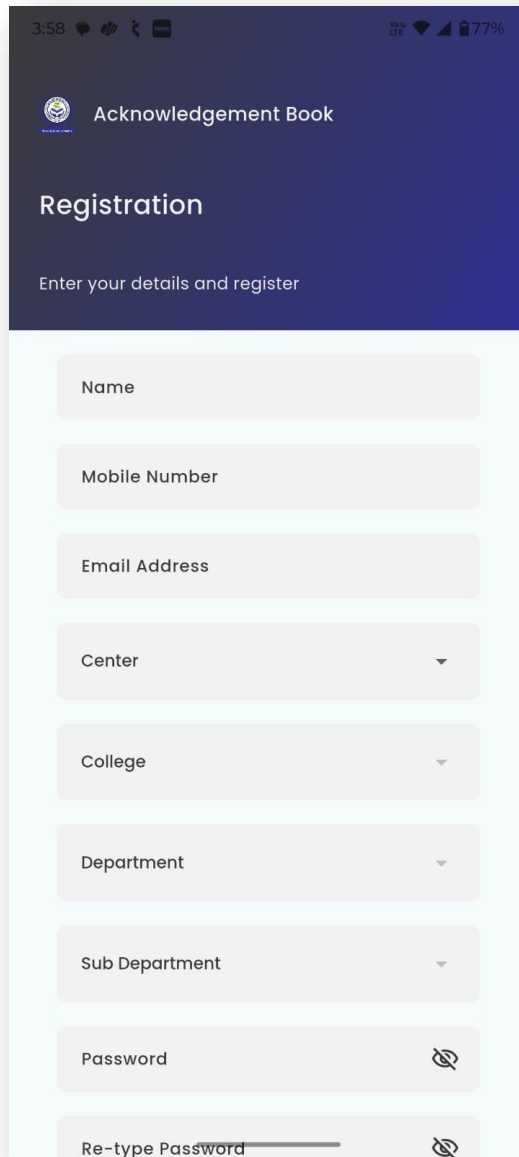

Users can sign in using their registered **mobile number** and **password**, with additional options for **Forgot Password** recovery and **new user registration** (**Register Now**).

The screenshot displays the login interface of the Acknowledgement Book Mobile Application. At the top, the status bar shows the time as 3:56 and a battery level of 78%. The app's header features its logo and the title "Acknowledgement Book". Below this, the heading "Sign in to your Account" is prominently displayed, followed by a link for users without an account: "Don't have an account? [Register now](#)". The login form consists of two input fields: "Enter Mobile Number" and "Enter Your Password", the latter equipped with a toggle icon for password visibility. A blue "Login" button is positioned below the password field. A link for password recovery, "Forgot Password? [Reset](#)", is located beneath the login button. At the bottom of the form, a disclaimer states: "By proceeding further you agree to our terms and conditions".

NEW REGISTRATION

The Sign up Page enables new users to register by entering personal, location, and professional details. This ensures secure onboarding and proper center mapping within the system.

A mobile application registration form titled "Acknowledgement Book" with a "Registration" subtitle. The form prompts the user to "Enter your details and register". It contains several input fields: "Name", "Mobile Number", "Email Address", "Center" (a dropdown menu), "College" (a dropdown menu), "Department" (a dropdown menu), "Sub Department" (a dropdown menu), "Password", and "Re-type Password". The "Password" and "Re-type Password" fields include an eye icon to toggle visibility. The form is displayed on a smartphone screen with a dark blue header and a light blue body.

DASHBOARD

The **Dashboard** provides a quick access panel where users can create and manage acknowledgement.

CREATE CONTENT

User can create a **Content Code** (or scan a QR code) to send documents. After submission, the details of the created content become visible.

The screenshot shows a mobile application interface for creating an acknowledgement. At the top, the status bar displays the time 3:57, signal strength, and battery level at 77%. The app header includes a back arrow and the title 'Acknowledgement Book' with a logo. The main heading is 'Create Acknowledgement'. The form contains several fields: 'Date Created' with a timestamp '2025-09-18 15:57:10', a 'To: *' field with a plus icon, a 'Content *' field with a hint 'You may skip delivered by if not known', a 'Delivered by:' field, and a 'Content Code *' field with a QR code icon. A link 'Don't have a content code? [Generate New](#)' is positioned above the content code field. A red warning message states 'Entry can only be deleted within 1 Minute of creation'. A large blue 'Create' button is at the bottom.

RECEIVE CONTENT

User can enter a **Content Code** (or scan a QR code) to receive documents. After submission, the details of the received content become visible.

VIEW ALL (RECORDS)

Displays all acknowledgements created or received.

BULK QR CODE GENERATION

The system can auto-generate multiple QR codes in bulk. A PDF file with QR codes is generated, each linked to a unique Content Code.
